Introduce yourself

The easiest way to introduce yourself on GitHub is by creating a README in a repository about you! You can start here:

wwwalohacampus / README.md

- ```
1 - 🙋 Hi, I'm @wwwalohacampus
2 - 👀 I'm interested in ...
3 - 📖 I'm currently learning ...
4 - 🤝 I'm looking to collaborate on ...
5 - 📧 How to reach me ...
6
```

## Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Owner \*

 wwwalohacampus

Repository name \*

profile 

Great repository names are short and memorable. Need inspiration? How about [miniature-octo-fiesta?](#)

Description (optional)

나의 프로필

☒

Public

Anyone on the internet can see this repository. You choose who can commit.

☐

Private

You choose who can see and commit to this repository.

Initialize this repository with:

Skip this step if you're importing an existing repository.

☒

Add a README file

This is where you can write a long description for your project. [Learn more.](#)

☐

Add .gitignore

Choose which files not to track from a list of templates. [Learn more.](#)

☐

Choose a license

A license tells others what they can and can't do with your code. [Learn more.](#)

This will set `main` as the default branch. Change the default name in your [settings](#).

## File not found

The site configured at this address does not contain the requested file.

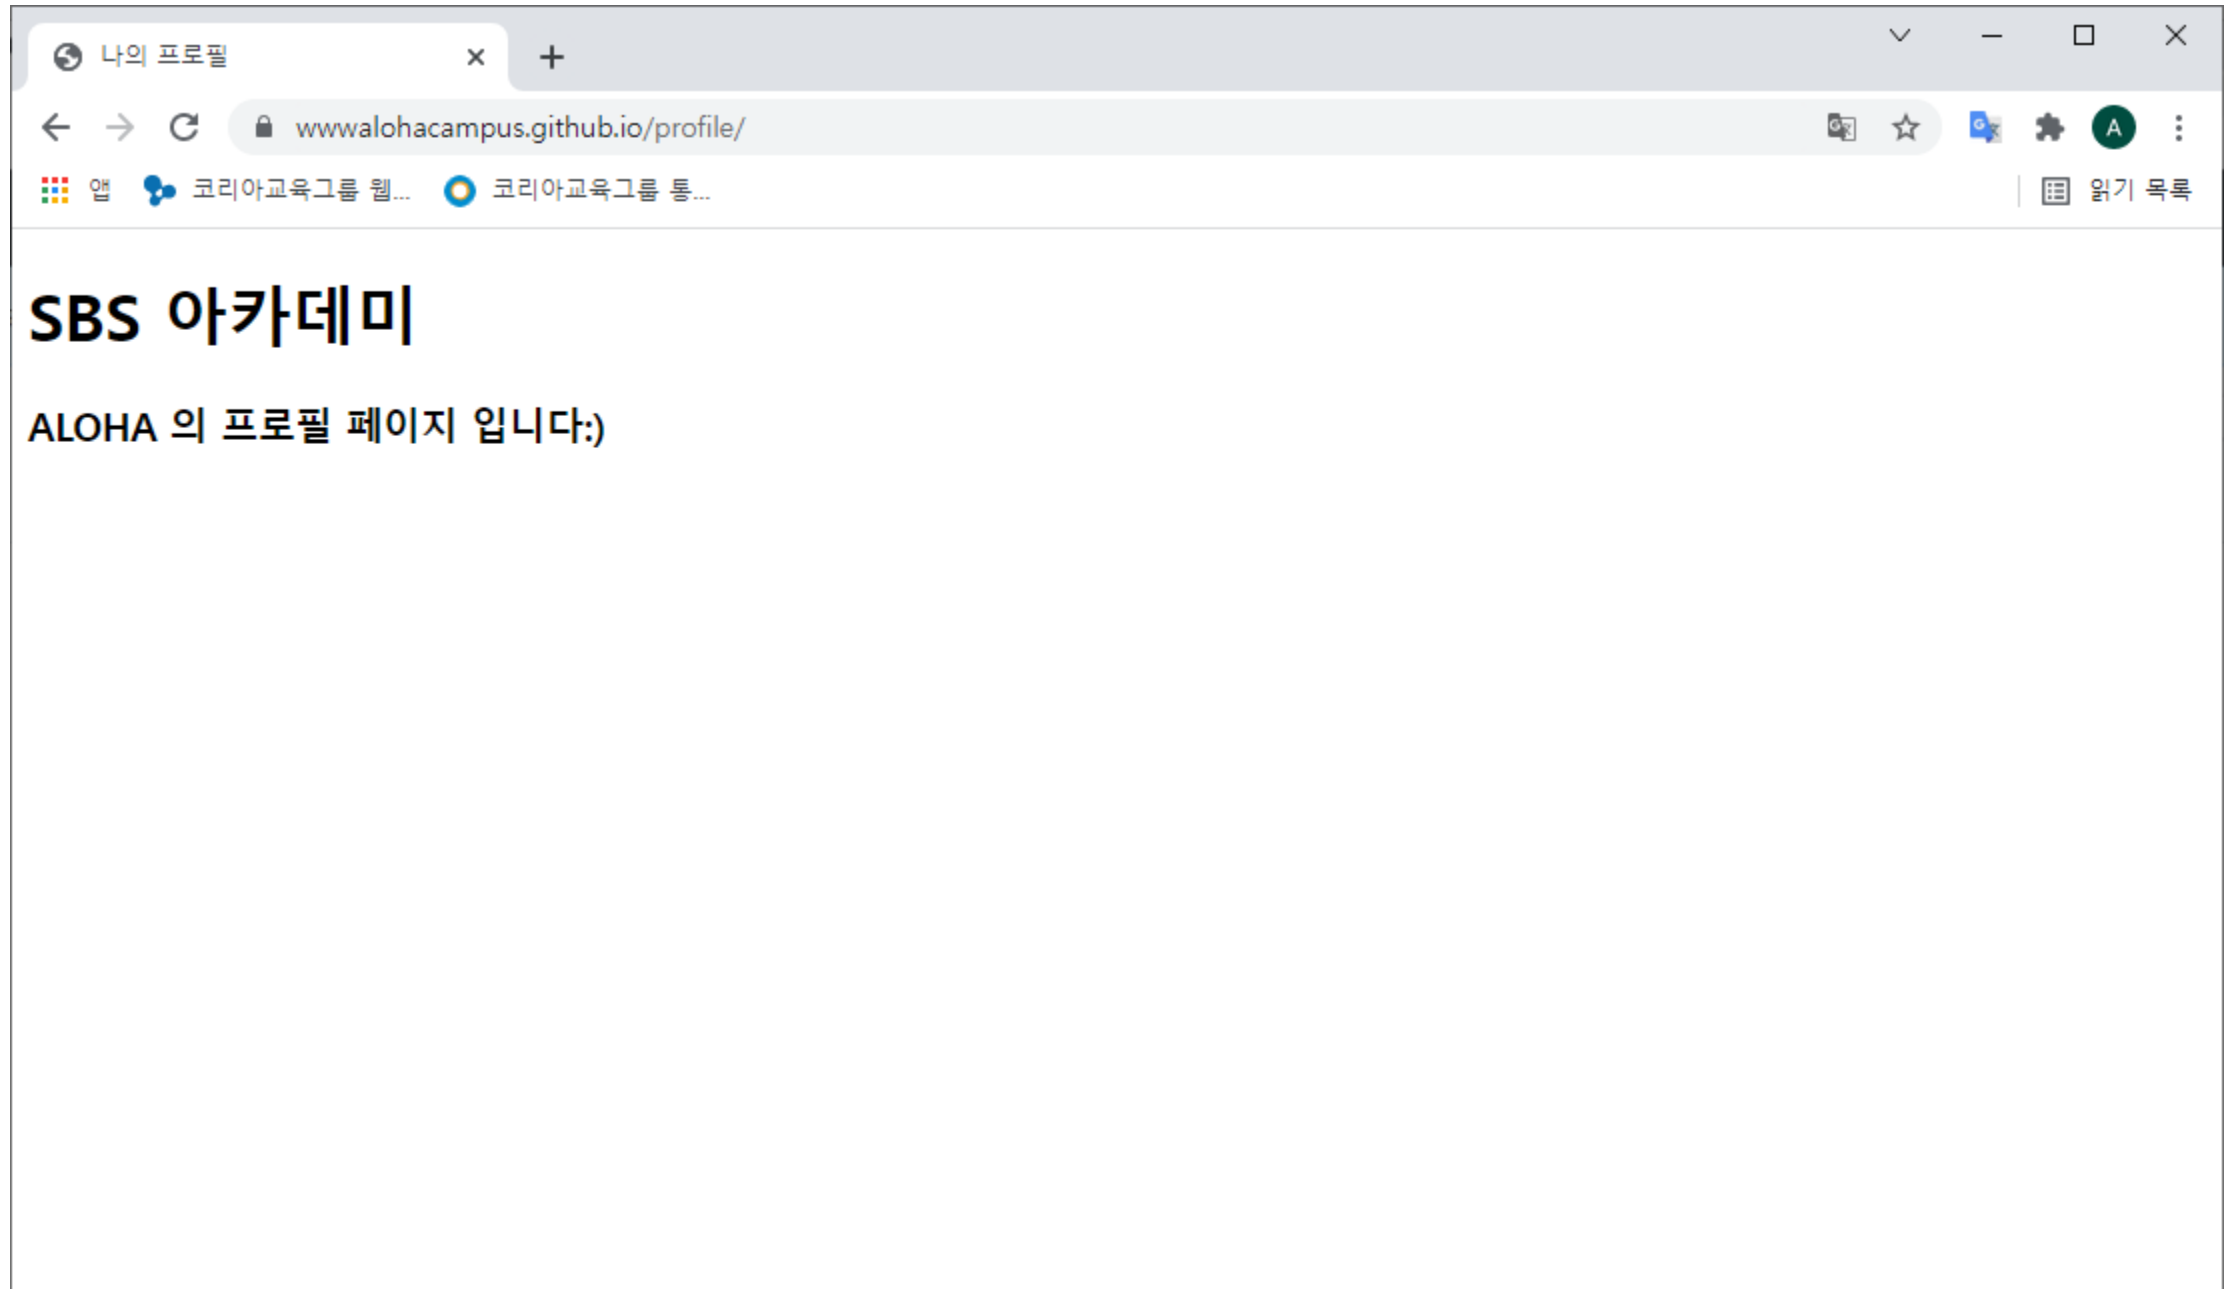

If this is your site, make sure that the filename case matches the URL.  
For root URLs (like `http://example.com/`) you must provide an `index.html` file.

[Read the full documentation](#) for more information about using **GitHub Pages**.

GitHub Status — @githubstatus

5분 이상 소요될 수 있습니다.

과제 끝!

수고하셨습니다 😊
